**Subject:** Pebble Talking Points from August Extended RTOC

I went back and looked through talking points going back to February and this was the latest item I found from the August extended meeting. Perhaps an update on what has happened (if anything) since August 24<sup>th</sup> could be included in the info Andrew passes to Michelle D.

ie. Was feedback on the EIS provided? What's the next step? What other role does EPA have going forward?

Then Chris can talk/respond off the cuff going forward.
